

Bacoban MüZe with long-term effect

Usage

Bacoban MüZe works for up to 24 hours against mosquitoes, biting flies, tiger mosquitoes and ticks. Bacoban MüZe is ideal for leisure, sports and travel and can be used in all areas including the tropics

General information

Appearance transparent,
colourless liquid

Active substance 20 % by weight

Density 0,94 – 0,98 g / cm³

Dilution ready to use

Odor Limonette

Operation:

Bacoban MüZe causes the sense of orientation and smell of mosquitoes, ticks and other blood-sucking pests is confused.

Protected areas of the skin are therefore unattractive to them and they have to look for a new victim.

Application

Spray product of 15-20 cm evenly on the skin, e.g. For the area of a forearm, distribute approx. 6-7 sprays / 1ml and then hand-free over all skin areas to be protected. For facial application, spray directly into the palm of the hand and spread it sparingly on the face, avoiding the eyes and mouth. If the effect wears off, reapply as described.
